Sprint 4 Report - Research Connect

Research Connect Team
Rev 1 - 3/17/2019

Actions to stop doing

- Pushing unfinished work onto master

Actions to start doing

- Using more local states
- Getting in contact with more professors

Actions to keep doing

- Pair Programming
- Communicating/Collaborating often to help out solving different bugs

Work completed/not completed

- **Completed:**
  - (8)   As a professor, I should be able to accept or decline applications to my research post.
    - Create button on post form for viewing applications
    - Create component to show applications
    - Make button and new component private to the post owner

  - (2)   As a professor, I should be able to edit my research posts.
    - Create redux action to transfer post data between components
    - Check for transferred post data in add/edit post form
    - Modify add post API call to support editing

  - (2)   As a professor, I should be able to delete my research posts.
    - Create delete button on post page
    - Make button private to post owner
    - Create API call to delete a post

  - (2)   As a user, I should be able to edit my profile.
    - Setup settings page
    - Create specific routing

- ○ Add custom privileges API

- (5) As a user, I should be able to follow professors
  - ○ Change user schema
  - ○ Create API for follow / unfollow
  - ○ Add buttons to UI

- (5) As a student, I should be able to apply to existing research posts.
  - ○ Create button on post page for applying to posts
  - ○ Make button private to students
  - ○ Create API call for applications

- (2) As a user, I should be able to view other users' profiles.
  - ○ Create routes for each cruzid so it can be accessed with URL
  - ○ Prevent user from having edit access on different user's profile

- (3) As a user, I want to see a grid of posts in the homepage
  - ○ Add APIs to get 10 latest ResearchPosts
  - ○ Implement CSS grid
  - ○ Design PostCard element
  - ○ Implement scalable PostCards

- (5) As a user, I should be able to unfollow professor (Not Mandatory)
  - ○ Change follow button into unfollow if professor is followed
  - ○ Create API for unfollowing professors
-

- **Not Completed:**
- (5) As a user, I should be able to see research posts by the professor on his profile.
- (3) As a student I should be able to leave a project.
- (3) As a user, I should be able to view my following page (Not Mandatory)
- (8) As a user, I should be able to see research posts in the following page (Not Mandatory)

Work completion rate
- %87.50
